Vol. XVIII.]

WEDNESDAY, JANUARY 7, 1818.

[No. 5117.]

For the prevention and cure of
BILIOUS and MALIGNANT FEVERS
is recommended
Hahn's Anti-Bilious Pills
THIS Medicine has been attended
with a degree of success highly grateful
to the inventor's feelings in several parts
of the West Indies and in the Southern
and Middle States, &c.

The testimony of a number of persons
can be adduced, who have reason to be-
lieve that a timely use of this salutary re-
medy has, under Providence, preserved
their lives when in the most alarming cir-
cumstances.

Facts of this conclusive nature speak
more in favour of a medicine than col-
umns of pompous eulogy founded on
mere assertion.

It is not indeed presumptuously pro-
posed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience for be-
lieving that a dose of these Pills taken
once in every two weeks during the pre-
valence of our bilious fevers, will prove
an infallible preventive; and further,
that in the earlier stages of those diseases
their use will very generally succeed in
restoring health, and frequently in cases
estimated desperate and beyond the pow-
er of common remedies.

The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation and of every age.
They are excellently adapted to carry
off superfluous bile and prevent its mor-
bid secretions—to restore and amend the
appetite—to produce a free perspiration
and thereby prevent colds which are of-
ten of fatal consequences. A dose never
fails to remove a cold if taken on its first
appearance: they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.

They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.

Hamilton's Elixir.

A sovereign remedy for colds, obste-
rate coughs, asthma, sore throats, ca-
tarrhs, and approaching consumptions.
To parents who have children afflicted
with the **HOOPING COUGH**, this dis-
covery is of the first magnitude, as it af-
fords immediate relief, checks the pro-
gress, and in a short time entirely re-
moves the most cruel disorders to which
children are liable. The Elixir is per-
fectly agreeable, and the dose so small
that no difficulty arises in taking it.

Hamilton's Grand Restorative,
Is recommended as an invaluable me-
dicine for the speedy relief and perma-
nent cure of
Nervous Disorders Violent cramps in
Consumptions the stomach and
Lowness of spirits back
Loss of appetite Indigestion
Impurity of blood Melancholy
Hysterical affection Gout in the stomach
Inward weaknesses Pains in the limbs
and debility Relaxations, &c.

**Hamilton's Essence and Extract of
Mustard.**
A safe and effectual remedy for acute
and chronic rheumatism, gout, rheumatic
gout, palsy, lumbago, numbness, white
swellings, chilblains, sprains, bruises, pain
in the face and neck, &c. &c.

Lee's Ointment for the Itch.
Warranted an infallible remedy at one
application, may be used with perfect
safety by pregnant women, or on infants
a week old, not containing a particle of
mercury or any dangerous ingredient
whatever, and not accompanied with that
tormenting smart which attends the ap-
plication of other remedies.

**Hahn's true & genuine German Corn
Plaster.**

An infallible remedy for corns, speedily
removing them root and branch, with-
out giving any pain.

The Genuine Persian Lotion,
So celebrated among the fashionable
throughout Europe, is an invaluable coe-
metic, perfectly innocent and safe, free
from corrosive and repellent minerals,
the basis of other lotions, and of un-
paralleled efficacy in removing blemishes
of the face and skin, freckles, pimples,
inflammatory redness, scurfs, tetter, ring-
worms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water,
A sovereign remedy for all diseases of
the eyes, whether the effect of nature,
weakness or of accident.

Tooth Ache Drops.
The only remedy yet discovered which
gives immediate and lasting relief in the
most severe instances.

Lee's Infallible Ague and Fever Drops
For the cure of agues, remittent and
intermittent fevers.

At the place of sale pamphlets
may be had gratis, describing cures per-
formed by the above medicines; the num-
ber, importance and respectability of
which, fully justify every article of this
advertisement.

TAKE THE HINT.
While every station, every grade,
Pursues its calling or its trade,
With art and care;
The Printer hunts the world for news,
And strives his readers to amuse,
With pieces rare.

Industriously with critic skill,
He toils his columns well to fill,
The livelong day;
While o'er the 'accustomed' desk he leans,
His patrons know he wants the means,
His debts to pay.

Dispensing useful information
Of this, and that, and 'other nation,
To make you wise;
Ingratitude, that worst of crimes,
He feels with tenfold weight these times,
When markets rise.

Yet ne'er uncourteous would he be;
All that he wishes is to see
His promise due;
And since for cash in vain he begs,
He pleads for *hark, or flour, or rags*,
Rather than *SUE*.

Then to the Printer quick repair,
And make it your peculiar care,
His bills to pay;
So shall the studios son of *Faust*,
Spare neither labor, time nor cost,
But print away.

With joy he'll hail th' expected morn,
The mail-stage with its bag and horn,
That brings the news;
Pore o'er Gazettes with rapid eye,
And all attentive care shall try,
Your taste to please.

JANUARY.
The name given to this month by the Romans, was taken from Janus, one of their divinities, to whom they gave two faces; because, on the one side, the first day of this month looked towards the New Year, and on the other, towards the old one. At the commencement of the new year, we rejoice with our friends at having escaped the dangers that attend every season, and commemorate the event by some present. The Romans, at this time, sent presents of sweetmeats—as dried figs, honey, &c. (streng) expressing a wish that their friends might enjoy the sweets of the year, into which they had just entered.—The calends of January, or the beginning of the year, were celebrated in the most gross and licentious manner. To this, St. Augustine alludes, in his address to some converts from Paganism—"will you celebrate the strenge as the Pagans do, and spend that day in gaming and drunkenness? What a contradiction is here between your profession and practice! While they send their presents, do you give alms; while they run to the theatre, hasten to church. While they get drunk, do you fast; or, if you cannot fast, at least eat with temperance and sobriety." A relic of this custom is still observed in the south of Scotland, where the sweetieskon, a sort of plumcake, constitutes the New-Year's gift. Among the northern nations, it was customary for subjects to present gifts to their sovereigns, which were called *julagialfe* yule gifts.

In France, particularly in the south, early in the morning of New-Year's day, a round of visits is commenced to relations and friends, to wish them a happy New Year, and to present them with *bombons* (sweetmeats). "The relations are first visited, beginning with those nearest in affinity, then those that are farther removed, and lastly come the friends and acquaintances. It is a contest of politeness, on this occasion, which shall start first and anticipate the call of a relation or friend. The shops of the confectioners are dressed up, on the day before, with looking glasses, intermixed with festoons of silk or muslin, and branches of ribbons or flowers. The counters are covered over with a nice table cloth, and set out with cakes, sweetmeats, dried fruits, and *bombons* made up into pyramids, castles, columns, or any form which the taste of the decorator may suggest; and in the evening they are illuminated for the

reception of company, who come to buy their *bombons* for the next day.—Endless are the devices for things in which they are to be inclosed; there are little boxes or baskets made of satin, ornamented with gold, silver or foil; balloons, books, fruit, such as apples, pears, oranges, or vegetables, such as a cauliflower, a root of celery, an onion, any thing, in short, which can be made with a hollow within to hold the *bombons*; but the most prevailing device is, what is called a *cornet*: that is, a little cone ornamented in different ways with a bag to draw over the large end, and close it up.—In these things, the prices of which vary from one franc (20 cents) to fifty, the *bombons* are presented by those who choose to be at the expense of them, and by those who do not, they are only wrapped in a piece of paper—but *bombons*, in some way or other, must be presented."—*Plumpe's residence in France, vol. 2.*

"The celebration of New-Year's day," observes Mr. Hutchinson, (History of Northumberland,) "is preserved in this country as a rural festival. Gifts are made to children, servants & dependants, called New-Year's gifts." Stillingfleet says, that among the Saxons of the northern nations, the feast of the New-Year was observed with more than ordinary jollity; and Hosioprian says, "it was an ancient custom of the heathens, and afterwards practised by the christians.—Servants were exempt from their labor, and partook of the feast and rural sports with their masters; they were presented with tokens of approbation and favor. On certain festivals the Romans gave pieces of money to travellers and strangers who were present at the sacrifice. On our day of festivity, mirth is excited by a rustic masquerading and playing of tricks in disguise; the hide of the ox, slain for the winter cheer, is often put on; and the person thus attired, attempts to show the character of the devil, by every horrible device in his power.—All the winter sports seem to express a strong opinion of the ancients, that geni of very contrary natures prevailed on earth: that the one was constantly concomitant to light as the other was to darkness; and this image of the devil, which is frequently permitted to expel the inhabitants and take possession of the house, is typical of the power of the evil genius, in the season when the sun is longest absent from our hemisphere." This corresponds with the lamentations used by those who held the Eleusynian mysteries and mourned for Adonis. It is very difficult to make any probable determination to what people we owe these customs. In the Roman Saturnalia and Sigillaria, this kind of frolicking was practised.

AFFECTING ANECDOTE.

A young lady named D'Amount, was executed in the city of Lyons for the supposed murder of her uncle, the Chevalier de la Paulone, with whom she lived in the most affectionate harmony from her infant years. Having conceived a passion for a deserving young officer, who was quartered in the town, and between whom and the young lady a mutual affection subsisted, she came to a determination of eloping with him unknown to her uncle, and only admitted one female servant to her confidence. It unfortunately happened that this woman was leagued with a private soldier, who meditated the plan of murdering the chevalier, with a view of plundering the house on the night the intended elopement should take place, in order that the unhappy niece should be judged the perpetrator of the horrid deed, which was accordingly effected with every degree of barbarity. The young lady and the officer were immediately pursued, taken and committed to prison. The former was tried, and executed on the false evidence of the female servant; and the latter was cashiered, and condemned to the galleys for life. Some time after, the servant being taken ill, threatened to divulge the whole matter before a magistrate; to prevent which, the soldier who had married her, put an end to his wife's existence; but at length, feeling remorse for these repeated murders, he voluntarily surrendered himself up to justice, confessed the whole affair, and was publicly executed amidst the execrations of the enraged multitude.

What adds to the dreadful recital is, that the young lady was not less remarkable for her beauty, than for her unaffected piety and sweet simplicity of manners. A broken heart soon terminated the miserable existence of the wretched officer, who died in six weeks after the execution of the most amiable sufferer, in the most excruciating tortures.

ALEXANDRIA: WEDNESDAY, JANUARY 7, 1818.

The following gentlemen were on Monday last elected Directors of the Farmers' Bank of Alexandria for the ensuing year:

Rd. M. Scott,
Thomas Swan,
Geo. W. Humphreys,
Ch. I. Catlett,
Rob. W. Harrison,
Jno. C. Vowell,
W. C. Seljen,
George Carter,
W. K. Armistead,
Wm. Stewart,
James Harper,
Wm. H. Foote,
Elisha Boyd.

And at a meeting of the Directors yesterday morning, R. M. Scott, esq. was re-elected President.

FROM OUR CORRESPONDENT AT WASHINGTON.

Tuesday, January 7, 1818.

Two resolutions respecting military affairs were yesterday, on motion of Mr. Johnson, of Kentucky, adopted by the House of Representatives. One was to enquire into the expediency of providing by law for organizing the general staff of the militia of the several states, upon the principles of the general staff of the army of the United States, as far as is practicable. The other to enquire into the expediency of providing by law a system of military discipline for the militia of the United States.

A report from the committee appointed to enquire into the subject of members of Congress having held places under the United States' government at the time of their election, and to decide upon the respective rights of the honorable Samuel Herrick and Elias Earle to retain their seats, was presented to the house, read, and ordered to be referred to a committee of the whole house and printed. Two resolutions, also declaring the said Saml. Herrick and colonel Earle duly elected, were read and referred to the said committee.

COMPENSATION TO MEMBERS OF CONGRESS.

Mr. Holmes, from the committee to whom it was referred to fix upon a proper compensation to be allowed to members of Congress, brought up a bill for that purpose; according to the provisions of which, should it pass, the compensation to members of both houses will be nine dollars per diem each, and to the president of the Senate and the speaker of the House of Representatives eighteen dollars per diem each. The bill was read twice, referred to a committee of the house for to-morrow, and ordered to be printed.

It was also resolved, on motion of Mr. Johnson, of Kentucky, that the committee on post-offices and post-roads be directed to enquire into the expediency of increasing the salary of the post-master general.

The engrossed bill for incorporating the Insurance Company in Alexandria, (Va.) was read a third time and passed.

The consideration of the bill prescribing the effects of judicial proceedings and judgments at law in the different states of the union, was then resumed in a committee of the whole, and took up the entire residue of the day. From the character of the persons who spoke, and the studious attention of the house being continued to it through such a number of hours, I conclude that the arguments were profound and able.—But I did not sufficiently understand them to transcribe the spirit of them into a report; which I therefore decline to do—for which I dare say your readers will feel not indisposed to thank me. As on former days, the committee rose at a pretty late hour, reported progress, and obtained leave to sit again.

On motion of Mr. Middleton, it was ordered that the judiciary committee do inquire into the expediency of making compensation by law to the honorable William Johnson, one of the associate judges of the U. States, for extra services he was called upon to perform during the inability of the late district judge of S. Carolina.

SPANISH QUARANTINE LAWS.
The board of health at Algiers (under approval of the supreme board) have decreed the pain of DEATH against all persons who shall clandestinely land from the Barbary Coast; against all who have communicated at sea with a vessel infected or provided with a foul bill of health, shall not make it known to the board when visited by its officers; against all captains, proceeding from an infected place, who shall land clandestinely on any point on the Spanish coast; and against all persons performing quarantine at sea or on shore, who, without the knowledge and express order of the board, shall take or send any goods or effects out of the quarantine ground, as well as all who shall assist in doing so, or who shall steal or assist in stealing them out of the state.

—

It decrees ten years imprisonment in one of the Spanish settlements in Africa against all persons, performing quarantine, who shall break it and run away, although but one day should be wanting to complete the same; and against all captains who shall land clandestinely on the Spanish coast, though not proceeding from a suspicious place.

It decrees 4 years confinement in the same settlements against all persons proceeding from Gibraltar, who shall land clandestinely at the lines or on any other point of the coast; and against all who shall attempt to enter the garrison by the beach close to St. Philips or St. Barbara's ruins.

And it decrees less severe penalties against such persons as shall communicate with those in quarantine; or who, sailing along the coast, shall refuse to obey the call of the health guards, at sea or on shore; or who shall sell new or old clothes without a written permission from the board of health.

Accomplices to be punished as principals; and those who are aware of the infraction of any of the rules, and do not give information, are to be punished with great severity.

FROM MEXICO.

A friend has politely favored us with the following extracts of letters received by the last mail from Natchitoches.

Natchitoches, Nov. 30.

"It has been reported by several persons who have arrived here for some weeks past from St. Antonio and its vicinity, that General Mina had been singularly successful, without stating particulars, until yesterday a Spaniard arrived direct from St. Antonio; who says the news was received there that Saltillo, Monterey, and Monticlor were in possession of Mina; that he had in detail beaten and nearly destroyed three divisions of the Royal Army; that the inhabitants were generally joining them; and that very little opposition in future was expected to be made him in the governor's generalship of Arredondo, formerly Salcedo. This is generally believed here—as soon as further particulars are received I will inform you of them."

Another letter of the 26th November, from very respectable authority, states, from an intelligent Spaniard's information, "General Mina, it is generally believed, has succeeded in every engagement he has had, and was on his return towards the sea coast with a large army collected from the armies of those republican generals from the interior, with whom he succeeded in forming a junction."

Another letter of 3d Dec. says, "We have had recent news from General Mina's operations—the last very favorable. He had out-generated and beat all the detachments that were sent against him; he had formed a junction with some of the chiefs of the revolution. His force was augmenting in a rapid progression, and some are of opinion that he is making a retrograde march to take possession of the adjacent provinces, in order to facilitate communication with the U. States, and at all events to keep a door open. This has arose from a report of a citizen of St. Antonio, who arrived lately from there, and says orders had been given to all the troops, citizens, & militia, to keep themselves in readiness to march against the Rebel Mina, who was expected to see them to the Colonia Santander, (the province where he disembarked in) and in which the sea ports Tonicic and Alami are formed."

In publishing these extracts, we ought not to withhold the expression of the belief to which we are constrained, that the information they afford is not incompatible with accounts received some time ago by way of Vera Cruz and Havana, of the capture of Gen. Mina and his principal officers. The letters above refer to information received "for some time past;" the latest of these is dated Dec. 3: the capture of Gen. Mina, by surprise, that is unexpectedly, is stated to have taken place about the 27th of October. That event might have taken place, and yet, owing to the vast extent of the tract of almost pathless country that intervenes, and the precariousness of communication, the information might not have reached Natchitoches. We are therefore under the impression, that these letters refer to anterior events, of which we long ago heard the details. We have not, however, thought it proper to withhold them, wishing our readers to decide for themselves.

I. Thompson, agent, joint proprietor," &c. and should any be offered for sale without said label on them, the purchaser may be apprised that they are counterfeit.

To the Flour and Rice Millers OF THE UNITED STATES.

GENTLEMEN,—It appears that many have refused to pay for license to use my improvements in the art of manufacturing flour, and in lessening the labor in rice mills, waiting the decision of the United States' courts; while many others have paid freely the sums I demanded for my license; there can exist no reason why some should pay and others be exempt. There has already been a sufficient number of decisions establishing the law, each infringer is liable to pay (relebe my actual damages, which cannot be rated at less than the value of the use of my property during the infringement. I have expended the greatest part of a long, arduous, and indefatigable life in study and exertions to invent and introduce into useful operation several important and highly useful improvements, from which great benefits are derived to the users, and I could have put in operation many more equally useful, but was prevented by the unjustifiable opposition, wasting the profits of those in operation, which I had intended to apply to put others in operation which I had discovered; but which now lay dormant, to my great mortification and the public injury. I come into the courts claiming remuneration for my time and labor—the great expenses that I have incurred in advertising repeatedly over the United States, and in my agents travelling for many years to make the utility of the improvements known, and to instruct millwrights to make, and millers to use them. The law contemplates that I shall receive ample remuneration, and by it I was encouraged to risk the great expenses. I have repeatedly published that the price of my license for the remainder of the term should be, the full price of the labor and boarding saved by the use of my improvements in one year only, with lawful interest until paid; but to those who infringed my rights, and refused to pay when called on, I would, beginning with the year ending January 22, 1813, count the sum saved in labor and boarding during the last year (equal to the first price) as a new sum becoming due, and running on interest also; and so on, the 22d day of January in each and every year thereafter a new sum saved in labor and boarding becomes due, and runs on interest until license be purchased, demanding the interest only on all these sums, leaving the principal in the hands of the users; which is the least I can receive of them to meet the expenses which they have compelled me to incur. The above are now the only terms on which my agents are instructed to grant licenses, and they are instructed to institute suits against all infringers without giving them another call.

Those who wish to purchase licenses may apply to John Love, esq. Buckland, Prince William county, or to Capt. John Moody, Richmond, Va.

OLIVER EVANS.

NOTE.—Persons using Mr. Evans' improvements, or parts of them, unpaid for, will be sued if they do not discharge the claim on application. Mr. William H. Alexander has, under my authority from Mr. Evans, been empowered to receive payments and deliver licenses to use his improvements. Payments, therefore, made to him, John Moody, or myself, will alone be valid, and save the expense of suit and trouble damages to the defendants.

Notice
IS hereby given, that an election will
be held at Hay Market, in the coun-
ty of Prince William, on the first Mon-
day in January next, for the purpose of
choosing a President, four Directors and
Treasurer to the Fauquier and Alexan-
dria Turnpike Company. A punctual at-
tendance of the stockholders to said insti-
tution is earnestly requested on that day.

Fifty Dollars Reward.
I WILL give the above reward for tak-
ing up and delivering to me in
Alexandria, or lodging in jail so that I get
him again, negro man WILLIAM, who
eloped from Washington, D. C. (where he
was hired) about 8 weeks ago. William
is about 28 or 30 years of age, 5 feet 6 or
7 inches high, tolerably well made, yel-
low complexion, large mouth, very white
teeth, and to the best of my recollection
a scar on his right cheek—he is very fond
of drink, and when intoxicated is a great
reprobate and excessively noisy. His
clothing is not recollected, but as he re-
ceived his wages before he started it is
probable he has furnished himself with a
new suit. BENJ. T. FENDALL.

Forty Dollars Reward.
RAN AWAY on the 21st ult from
the service of Mr. Jesse Brown, of
the City Hotel, SEBREE, (sometimes
calling herself Cecilia Green) the property
of Mrs. Ann H. Lee, a pale mulatto
woman, about 20 years old, of a middle
stature, well formed, with small sunken
eyes, and Indian hair. She probably has
gone to Baltimore, or some of the north-
ern cities, as it is supposed she was seen
the next day on the road near Bladens-
burgh, clad in a stuff dress and a cloak
or mantle, with a bundle of clothes in her
hands. She may possibly be about the
town, or in the District. Thirty dollars
will be given for apprehending her, if
taken within the District, or forty, if at
a greater distance, and all reasonable
charges defrayed. Enquire of
ABIEL HOLBROOK.

Thirty Dollars Reward.
RAN AWAY from my service, on
the 10th inst. my mulatto house-
servant GEORGE, between 18 and 19
years of age, about 5 feet 6 inches high,
slender made, pug nose, bushy hair, half
of one of his upper front teeth broken off
—he is very artful and forward, and a cap-
able house servant—he took with him a
variety of clothing. I will give the above
reward, if secured in any jail, so that I
get him again, and will pay all reasonable
charges if brought home. Masters of
vessels and others are forewarned from
employing or carrying off said servant at
their peril. C. F. WHITING.

James Kennedy & Son,
BOOKSELLERS,
KING-STREET, ALEXANDRIA,
RESPECTFULLY inform the public
that they have just received from
Lee's Medicine Store,
No. 46, Maiden lane, New-York, a fresh
supply of the following valuable MEDI-
CINES:

**Hamilton's Worm-destroying Lozen-
ges.**
Which have within sixteen years past
cured an immense number of persons of
both sexes of every age and in every sit-
uation, of various dangerous complaints
arising from WORMS, and from obstruc-
tions or foulness in the stomach and bow-
els.

This medicine bears no analogy what-
ever to others of similar titles so com-
monly complained of as operating with
violence; on the contrary a particular
excellence of this remedy is its being
suited to every age and constitution. It
contains nothing but what is perfectly in-
nocent & is so mild in its operation that it
cannot injure the most delicate pregnant
lady or the tenderest infant of a week old
should no worms exist in the body; but
will without pain or griping cleanse the
stomach and bowels of whatever is foul
or offensive, and thereby prevent the pro-
duction of worms and many fatal dis-
orders. The lozenges are particularly
efficacious in carrying off all gross hum-
ours and eruptions, feverish and bilious
complaints, and are the safest and mildest
purgative that can be used on any
occasion.

**Description of Worms, and the sym-
ptoms by which they are known.**
Worms which infest the human body
are chiefly of four kinds viz.—The Ascar-
ides or large round worm; the Ascari-
des or small maw-worm; the Cucurbi-
tus or short fat white worm; and lastly,
the Tinea or tape-worm; so called
from its resemblance to tape. This is
often many yards long and is full of
joints. It is most hurtful and most diffi-
cult to remove.

Among the symptoms attending worms
are—disagreeable breath, especially in
the morning; bad and corrupted gums;
itching in the nose, and about the seat;
convulsions, epileptic fits, and sometimes
privation of speech; starting and grind-
ing of the teeth in sleep; irregular appe-
tite, sometimes loathing food and some-
times voracious; purging with slimy and
fætid stools; vomiting; large and hard
belly; pains and sickness at the sto-
mach; pains in the head and thighs and
lowness of spirits; slow fever with small
and irregular pulse; a dry cough; exces-
sive thirst; sometimes pale and unhealthy
countenance, and sometimes the face bloated
and flushed.

Persons afflicted with any of the above
symptoms should have immediate re-
course to Hamilton's Worm Destroying
Lozenges, which have been constantly
attended with success in all complaints
similar to those above described.

A dose of this medicine given occa-
sionally during the warm season, will ef-
fectually prevent "the vomiting and purg-
ing of children"—a dreadful disorder,
which annually destroys thousands of the
infant part of our citizens. It is likewise
the mildest and most certain remedy
known, and has restored to health and
strength a great number when in an ad-
vanced stage of this fatal complaint. Par-
ticular and plain instructions are given
for every part of the necessary treatment
in such cases.

Children generally take this medicine
with eagerness; having a pleasing appear-
ance, and an agreeable taste.

For the prevention and cure of
BILIOUS and MALIGNANT FEVERS
is recommended
Hahn's ANTI-BILIOUS PILLS
THIS Medicine has been attended
with a degree of success highly grateful
to the inventor's feelings in several parts
of the West India and in the Southern
and Middle States, &c.

The testimony of a number of person
can be adduced, who have reason to be-
lieve that a timely use of this salutary re-
medy has, under Providence, preserved
their lives when in the most alarming cir-
cumstances.

Facts of this conclusive nature speak
more in favour of a medicine than enu-
merals of pompous eulogy founded on
mere assertion.
It is not indeed presumptuously pro-
posed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience for be-
lieving that a dose of these Pills taken
once in every two weeks during the pre-
valence of our bilious fevers, will prove
an infallible preventive; and further,
that in the earlier stages of those diseases
their use will very generally succeed in
restoring health, and frequently in cases
esteemed desperate and beyond the power
of common remedies.

The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation and of every age.
They are excellently adapted to carry
off superfluous bile and prevent its mor-
bid secretions—to restore and amend the
appetite—to produce a free perspiration
and thereby prevent colds which are of-
ten of fatal consequences. A dose never
fails to remove a cold if taken on its first
appearance; they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.

They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.

fords immediate relief, checks the pro-

children are liable. The Elixir is per-
fectly agreeable, and the dose so small
that no difficulty arises in taking it.
